When it comes to wanting the world’s smallest, most comfortable and best sounding hearing aids, people everywhere turn to MicroTech, an American-owned and operated manufacturer of advanced hearing solutions.

Propel hearing aids by MicroTech are designed to make listening easy and enjoyable again. With their advanced features, they’re engineered to:

- Reduce listening effort in noisy environments*
- Improve listening to music and TV
- Enhance phone calls
- Virtually eliminate whistling and buzzing
- Fit comfortably, customized for your ears
Propel hearing aids feature MicroTech’s latest noise reduction and speech preservation system, which is designed to deliver incredible sound clarity even in the noisiest situations.

Propel can also stream stereo sound from your TV, radio, computer and even your cell phone directly to your hearing aids. With Propel, you can enjoy hands-free phone conversations and listen to TV or radio at the volume you want. Others around you can listen at the volume that’s most comfortable for them.

If you have been looking for a hearing aid designed to make conversations comfortable, and TV, music and phone conversations sound like never before, Propel is it.
Propel hearing aids are designed to accommodate and enhance a variety of listening environments.

What you need will depend on how busy and active you are, and what types of environments you frequent.
Combined with our innovative SurfLink® accessories, Propel wireless hearing aids can also make it easier to enjoy TV, music, cell phone conversations and more — no wires attached!

**SurfLink Mobile**

Enjoy hands-free phone conversations with this one-of-a-kind device. That’s because SurfLink Mobile turns your Propel hearing aids into both your cell phone microphone and receiver:

- **Microphone** — Your hearing aids can pick up your voice and send it to the person you’re talking to
- **Receiver** — SurfLink Mobile streams the voice on the other end of the phone directly to both of your hearing aids

But that’s just the beginning. SurfLink Mobile is not only a cell phone transmitter, it’s also an assistive listening device, media streamer and hearing aid remote all rolled into one.
**SurfLink Media**
This set-and-forget media streaming solution connects to TVs, MP3 players and more to wirelessly stream audio directly to your Propel hearing aids. You can hear the volume at the level you want, while everyone else in the room can listen at the volume they want.

**SurfLink Remote**
This handy remote lets you adjust and control your Propel hearing aids with the push of a button.

SurfLink accessories are compatible with Propel wireless only.
You Want

A way to hear better in noise

Help hearing high-frequency sounds (like children’s and women’s voices)

A personal and comfortable listening experience

No buzzing or whistling

Reliable, long-lasting hearing aids

Simplicity and great sound quality

Direct audio streaming of media devices
engineered to make

HEARING CAREFREE

Propel Delivers

A precision microphone technology and advanced noise reduction and speech recognition system designed to amplify meaningful sounds—such as speech—while reducing unwanted background noise.

The only technology that replicates high-frequency speech cues into lower frequencies, where they’re easier to hear.

Sound compression technology designed to differentiate soft speech from loud, for a more enhanced and natural sound quality.

Our industry-leading feedback elimination technology makes buzzing and whistling hearing aids a thing of the past.

HydraShield®2, our pioneering water- and wax-repellent moisture protection system, enhances durability and dependability.

Smart technology that knows when you’re on the phone or learns your volume preferences, then automatically adjusts settings for optimal listening.

Direct-to-hearing-aid streaming of TVs, computers, MP3 players and phones when synced with either SurfLink Mobile or SurfLink Media.

Features may vary by hearing aid style or technology level.
Easy-to-adjust Propel hearing aids are available in several styles and a variety of discreet and stylish colors. Consult your hearing care professional and start experiencing Propel for yourself.

Propel hearing aids are available in both wireless and non-wireless products. Style availability will vary.
